127 REALTY DEALS ARE CLOSED IN WEEK

Absorption of Public in Mexican Situation.

The Mexican situation seems to have affected the Washington real estate market. During the last week brokers complained that the situation of seculators and prospective home-buy ers alike, was concentrated on the war news, and the closing of a sale was accomplished with difficulty. The maret, however, bore up well under the strain as is shown by the fact that a otal of 127 deals were completed in the ast six days. Involved in these trades were 182 lots and parcels of real es-

The northwest section came into its own this week, and took the lead of the market, showing a total of sixtysix lots transferred. The outlying suburbs were in second place with forty-four parcels conveyed, followed closely by the near-urban district with hirty-two lots sold. The southwest tiso showed improvement and recorded sixteen lots conveyed. There were thirteen lots sold in the northeast, and cleven in the southeast.

Tuesday Busy Day.

Tuesday was the only busy day the rokers experienced this week. On this day the record shows thirty-three sales completed. Monday ranked second with twenty-three deals. Friday and Satorder had twenty and nineteen trades espectively, while the trading of Wednesday and Thursday was on a par ach day witnessing the closing of six-

Only 5 Per Cent of Students Knowledge, Child Welfare Speaker Says.

That only 5 per cent of the students in universities in the United States assimilate the subjects they attend the institutions to study; that 10 per cent of every freshman class are dismissed from the school by Thanksgiving Day. simply because they are so carried away by the excitement of the moment that the pursuit of knowledge can no longer hold their attention-these and other startling statements concerning the problem of training the young made up the address delivered by Dr. M. V. O'Shea, of the University of Wisconsin at this morning's session of the Third International Congress on the

Welfare of the Child. Dr. O'Shea pointed to the fact that children are hardly ever alone, as were their forefathers during childhood, and, as a consequence did not give their individual attention to study which means so much to their mental development He declared that by neighborhood cooperation alone would it be possible to solve this latest problem of the times that it would be necessary for parents in the neighborhood to get together and agree that all children be required to give the hours between 7 and 9 o'clock

each evening to study.

"Then there will be no appeal of the crowd—to join the crowd—do what the crowd is doing," declared Dr. O'Shea.

"We cannot make the university course "We cannot make the university course in conic sections as interesting as the tango and the appeal of the moving picture theater. The things of the street are taking the children out of the home more and more."

Asking that he be not misinterpreted concerning his remarks on the small percentage of students who obtain that

for which their parents pay, Dr. O'Shea said that he thought it true that a con-siderable percentage of the student body in the universities generally get suffi-cient high marks in their studies to get through, but even in getting through they have not actually assimilated their study.

study.

At the morning session also reports were received from Mrs. David O. Mears of Essex, Mass., chairman of the committee in charge of the child welfare campaign; from Mrs. Walter LeRoy Smith, of Maiden, Mass., chairman of the parent-teacher department; and from Mrs. W. F. Thacher, chairman of the committee on home economics. Dr. Walter W. Reach, director of medial inspection in the department of lal inspection in the department of health of Philadelphia, gave a descrip tion before the Congress of Mothers of the method of utilizing the moving picture film in educational work. The Safest Investments Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-lets. First deed of trust notes (first mort-sages), well secured on real estate in the District of Columbia, constitute "git-edge" investments. They do not depend upon the financial responsibility of individuals of cor-porations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from 1500 upward. Send for booklet, "Concerning Loans and Investments."
